This unit was owned since new by a public works department in LA, it will crank/run/and operate but does have hydraulic issues causing the lift arms to not work, the agency said it was working fine when taken out of service, may be an issue may be operator error?, the PTO does engage and operate properly, the tires are all in good shape and the brakes are working as they should, there is no significant damage anywhere on this unit to mention, the gauge by the steering wheel is a bit fogged therefore we could not see how many hours the unit has, please come inspect prior to bidding!!!!!!
