**This unit belonged to a small town in Louisiana, cranks/runs/and drives but it does idle slightly rough, the town said it is most likely from sitting up not being used, explained when it was in service about 2 years ago it had no issues, probably fresh fuel and maybe minor tune-up, runs good enough to drive down the road, unit was checked for check engine codes and our code reader did not show any codes, the transmission shifts properly, the brakes work as they should, the tires are in good condition, we are unable to get the miles off of this unit because the odometer bulb has gone out, the gear selection is hard to see as well but is still visible, the interior is in good condition but for the dash being cracked, the AC blows air but it is not cold, please come inspect prior to bidding!!**
