**This unit was owned since new by a local farmer that recently passed away and the family has no use for it. Tractor will crank/run/and drive properly, the transmission will shift through all gears as well as the tires being in great shape and the brakes working as they should, all hydraulics are operating like they should except the left side lift arm is leaking pretty good when you boom down, cylinder will need to be repacked, hood has a couple of dents and scratches but nothing major, this unit overall is in good shape and ready for work, the hour meter screen is busted but we believe the hours to be around 800-1200 hours. The owner has another tractor the same year model and was purchased the same time frame that has 1000 hours on it, please come inspect prior to bidding!!!!!!**
