10:1 Reduction Ratio

Briggs & Stratton Powerbuilt 10 HP Engine

Engine Manual

Operators manual

Hand Pull or Trailer Pull behind mower

This item was purchased new by a local family looking to downsize their life due to a family illness and move closer to family. They don't have room for any of their yard equipment where they are moving and we are helping them liquidate their items.

This item will crank and run and operate (see video). When it arrived it wouldn't start and we emptied the gas and it had water in it. Once we had fresh fuel it would crank and run but only while on full choke but runs good, it seems to still have some water in the carb and will need further cleaning out but still runs and operates. This unit is designed to be pulled around by hand or can also be pulled by a mower and was purchased to go along with LOT 55 (Cub Cadet Riding Mower) along with several other attachments that will be listed in case someone wants to keep as a package together.

Each and every Lot is sold "as is, where is". JJ Merchant provides no guarantees or warranties (express or implied) in respect of the item contained in the Lot. All representations made by JJ Merchant, its servants or agents are to be considered lay opinions only and JJ Merchant accepts no liability for any purchase made by a Buyer in reliance upon them.
