**This unit belonged to a government agency in Alabama. This unit will crank and run by crossing the starter. Unit will go into gear forward and backwards but the brake cable on the left side is cut and the brake has the wheel locked up. (SEE VIDEO) All other functions operate like they should. The right side lift cylinder is leaking. The seat is torn and has a good size piece of cushion missing. The LP cylinder bottle you see in the pics & video are not being sold with the machine. Buyer will get an empty bottle with the machine just not the one in the pics & videos. Please come check this unit out for yourself.**
