This unit belongs to a regional recycling company. This unit was simply replaced due to age. The unit will crank, run, and operate. The machine has a power steering leak and makes it hard to steer when low. The seat is in good condition but does have a small split in the seam on the side. The forklift has new tires all the way around. The forklift comes with a Cascade Bale Clamp. This machine will need a battery as the one in it will not hold a charge. The propane bottle on the machine in pictures IS NOT included with the machine. A bottle will be available for loading purposes but will not be included. This unit is not real pretty, but it runs and operates great! Please come check this unit out for yourself.
