This unit is owned by a local contractor who is selling to move to a larger machine. The current owner purchased this unit from a government agency and the hours are said to be the original hours! This unit cranks, runs, and pulls in all directions with plenty of power, all functions of the 6-way blade operate as designed, the undercarriage is in fair condition, seat is in good condition with no major rips or tears, and the tracks are in good condition! This unit comes with a complete shop manual as well. When you crank the dozer it starts slowly moving in reverse and you have to wiggle the shifter to get it to change to forward. Please come check this unit out for yourself!!
