**This unit is owned by one of own employees who is the second owner and has owned it since 2021. This bike cranks, runs, and shifts through all gears with no issues, the electric start is not currently working, could just need the battery charged up or replaced but will crank no problem with the kick starter, the bike is loaded with aftermarket goodies but has never has the engine modified. The fuel petcock will need replaced as it no longer shuts the fuel off when switched to the off position. The owner is selling the bike due to a rule change at tracks no longer allowing them as pit vehicles, so it does not get used as much as it did the last couple years. Please come inspect prior to bidding!!!!!!**
